About us

We are three people, who believe that when we all come together as a community, we can create life-changing opportunities for people who need support – no matter what country you're from.

My name is Corinna Clamp, I am a Personal Development Coach and currently doing a BSc degree in Psychology, my passion is being able to support others, specifically on a cognitive level. I consider myself to be incredibly fortunate, and where I have been supported throughout my life, I wish to do the same for people who need it. Life is a journey and I believe it is one where we live better through showing each other kindness, compassion and love.

My husband, Julian Rodriguez also thinks that helping others should be part of what we do and who we are, in fact he has volunteered to support me with this project, he will be training with me and will climb Mount Snowdon with me on the 6th April 2023 – My hero!

Steve Ibrahim is our incredible friend who has also joined our loving project, Steve is a person who never hesitates in helping others, his generosity and kindness is inspirational, we are truly lucky to have his support! Steve's beautiful wife Fiona will be having their baby at the time we are due to climb Mount Snowdon so he will be doing his climb in October 2022!

A youth we help is a generation we save

Project: Skills for life

This project is all about supporting young people who come from difficult and vulnerable backgrounds and who have found themselves in trouble with the law. These are the adolescents that most people will turn away, that will struggle with getting a second chance and very sadly some of them will probably end up back on the streets or in trouble with the law. The institute, Club Amigo Santo Angel which they attend work tirelessly to encourage restorative results and a chance of living a better and different life.

Among the activities that are run by the institute such as educational workshops, dance and sport, they have recently started running a course on bakery. This is a life changing course that not only teaches them the skills that will allow them to get a job, but it will also help them from going back to a life of crime. **A youth we help is a generation we save.**

I have listened to the students who have graduated from the course and it's heart warming to hear the gratitude they express and the value they all give to what the course represents to them. Unfortunately, due to lack of funds out of the 100 adolescents there are resources for only 10-13 people.

Our aim is to raise enough funds to be able to get the bakery up and running in a stronger capacity, and to ensure more of these youngsters can have the opportunity to be part of the course. The main objective is that they receive the support and tools to be able to give them a better fighting chance in what is a very tough world for them.

If we all chip in as a community, without a doubt we can create life-changing opportunities for these young people who just need to feel loved, heard and supported.

Charity: Club Amigo Santo Ángel

Club Amigó Santo Ángel belongs to the Pastoral Office for Children and the Family -OPAN- directed by the Congregation of Religious Tertiary Capuchins, (inspired by the Amigonian Pedagogy, with strict adherence to the Law of Childhood and Adolescence - Law 1098, committed to leading high-quality processes in the protection modalities and criminal responsibility system in the social context).

The Club Amigo Santo Ángel Program is derived from the Criminal Responsibility system for adolescents -SRPA Law 1098 of 2006. Currently, it provides service to an average of 100 adolescents and young people in conflict with the law, from Bogotá and its surroundings, who enter in compliance with the Non-custodial Sanction in the Internment modality in a semi-closed environment, referred by the specialized courts for children and adolescents of the judicial district of Bogotá.

The Club Amigó Santo Ángel program develops different psychosocial, technical, academic and support processes for families, with the purpose of managing possibilities of social inclusion and fulfillment of the goals in their life plans, in addition to preventing risk factors that lead to reoffending.

The youths receiving the support

The specific mission of Club Amigo Santo Angel is the **Prevention, Protection and Re-education** of children and adolescents between 16 and 25 years of age, considered to be in a situation of extreme poverty, with little schooling, marginalized, stigmatized and many victims of exploitation in different areas, in general it is a population that comes into conflict with criminal law, which in addition to many other social, family and personal factors places them at high risk and social vulnerability.

Club Amigo Santo Angel deals with adolescent lawbreakers, girls, boys, adolescents and workers and those who are also considered at high risk of social maladjustment, successfully enabling them to conceive a decent, useful and productive life project and achieve the start and/or the continuity of interrupted school and training processes.

A youth we help is a generation we save

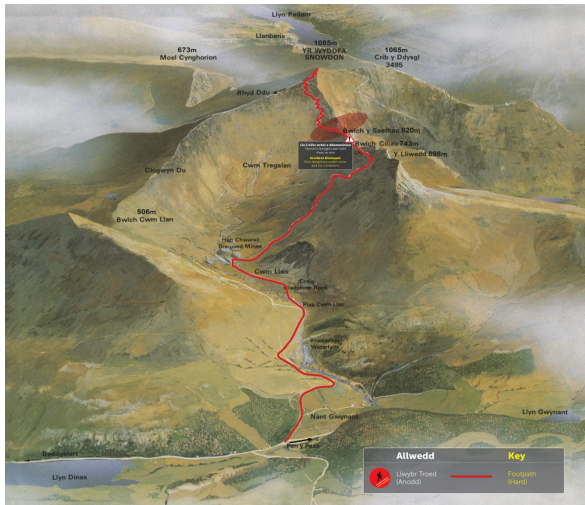

Fundraising activity

Activity: Climbing Mount Snowdon

We will be climbing Mount Snowdon on the 8th April 2023 – It will take approximately 6-7 hours and out of the six different routes we will be taking the Miners/Pyg Track route. For those who are interested in following us/the projects progress I will be posting updates of training and of the project in general on my business Instagram account @coryjbalance and for donations <https://www.justgiving.com/crowdfunding/projectskillsforlife>

About Mount Snowdon:

Snowdon is located in Snowdonia National Park, it is the highest mountain in Wales, at 1,085 meters above sea level, and the highest point in the British Isles outside the Scottish Highlands.

A youth we help is a generation we save

The Bakery: Betlem

Betlem – *The Bread House*

The course duration is two months, running once a week with a capacity of thirteen students at most. It has only had two courses so far in the past year as it has solely depended on donations. The funds raised for this project will not only help fund more courses, but it will also go towards the bakery becoming self-sustainable in the future.

Making a difference

A youth we help is a generation we save

Lives are changed & saved through baking; the impact of this project goes a lot deeper than just learning how to bake. It's a domino effect that impacts their families, their community, & the society they live in. This project helps the youths by giving them hope of a different life, in teaching them skills they can get jobs with and in showing them what it means to create something as meaningful as bread. **A youth we help is a generation we save.**

Thank You

Thank you for taking the time to read this
Thank you for your support
and most of all,
Thank you for believing we can make a difference
together in helping these resilient young people who
seek a better way of life.
